Patient Education

Patient education is a vital component to the patient experience. Providing patient education starts with credible, up-to-date information. You play an important role in the patient transforming the information you give them into knowledge they can understand and apply to wellness, healthy living, and healing.

Listed below are the online patient education resources available to you:

Preferred WFH Patient Education Resource
A user-friendly, comprehensive, print-on-demand patient education system that provides clear, concise, patient-centric information to help patients better understand their conditions, treatments, medication regimens, and post-discharge self-care responsibilities.

Krames On-Demand®

Quick Start Guide

A step-by-step guide for Krames On-Demand® electronic patient education system.

There are two ways to find HealthSheets:

1. **BROWSE**
2. **SEARCH**

1. The **Browse** feature allows a user to find a HealthSheet™ by selecting a topic and narrowing down to a specific document.

The screenshot shows the Krames On-Demand website interface. The 'Browse' tab is highlighted with a red circle and a red arrow pointing to it from the left. The search box is also visible, with a red circle around the 'Search' button and a red arrow pointing to it from the right. The main content area displays the 'Browse HealthSheets™' page, which includes a list of topics and a table of available languages.

Browse:

1. Select the Browse tab
2. Click on a topic to display a list of subtopics
3. Find a document and click on the title to view it
4. Click the **Back** option in the browser toolbar to return to the browse page

2. SEARCH

Enter a search term in the search box to find HealthSheets and drug sheets. All matches to the search term will be listed in the search results. To expand your search, select the Full Text search in the search results to find matches in the body of the document. Use the Advanced Search to find documents using search terms, ICD-9 codes and CPT codes.

The screenshot shows the Krames On-Demand website interface. The search box is highlighted with a red circle and a red arrow pointing to it from the right. The search button is also highlighted with a red circle and a red arrow pointing to it from the right. The main content area displays the 'Browse HealthSheets™' page, which includes a list of topics and a table of available languages.

Enter a Search Term in the Search Box.

Searching by Search Term:

1. Type a search term in the search box
2. Click **Search**
3. All matches will appear in the search results

To initiate a Full Text search:

1. In the search results, go to "For more search results: Full text search on search term."
2. Click on **Search**
3. All matches will appear in the search results

MEDICATIONS

This tab allows a user to find drug information by name, indication or classification. You may also enter a drug search term in the search box to find drug information.

The screenshot shows the KRAMES On-Demand interface. At the top, there is a search bar with the text 'Krames On-Demand' and a 'Search' button. Below the search bar, there are three tabs: 'Browse', 'Folders', and 'Medications' (which is highlighted). To the right of the tabs is the 'Education Cart' button. Below the tabs, the account name 'Wheaton Franciscan Healthcare-SE Wisconsin' is displayed. On the left side, there is a 'Help' section with links for 'View Icon Key', 'View Language Key', and 'Help with Medications'. The main content area is titled 'Search Medications' and contains a 'Start a New Search' section with the instruction 'Select from one of the following search types.' Below this are three buttons: 'Name', 'Indications', and 'Classifications'. At the bottom of the page, there is a 'Back to Top' link and the version information 'VERSION 5.0 | © 2012 The StayWell Company'.

Medications can be searched by Name, Indication or Classification.

Searching by Drug Name

1. Click **Name** under “Start a New Search”
2. Enter your search term: brand name, generic name or ingredient
3. The default search will find only drugs that begin with the search term you enter. To find drugs that contain a term in any position, choose “Contains”
4. Click **Search**. A list of drugs that match your search term will be displayed

Searching by Indication (optional)

Click **Indications** under “Start a New Search” and select a letter from the dropdown. Choose an indication and press **Search**

Searching by Classification (optional)

Click **Classifications** under “Start a New Search” and choose a classification from the list. Press **Search** to find drug sheets

DROP-DOWN MENUS

When viewing a HealthSheet or drug sheet, you have access to dropdown menus. The menus include options that can be applied to the document — Print, Add to Folder, Add to Education Cart or View in a different language.

The screenshot shows the 'Action' dropdown menu. It contains several options: 'Print', 'Normal', 'English', 'No Duplicate', and 'Go'. The 'Go' button is circled in red. Below the options, there are labels for each: 'Action for Selected Items', 'Text Size', 'Language', and 'Print Duplicate'.

- After selecting the drop down option, Click **Go** to perform the action selected

LANGUAGES

All Krames On-Demand sheets are available in English and Spanish. The discharge instructions (only) are also available in Russian, Chinese and Vietnamese. Ten key titles are available in 10 different languages.

The screenshot shows the search results page for 'Syncope'. At the top, there is an 'Action' dropdown menu with options: 'Print', 'Normal', 'English', 'No Duplicate', and 'Go'. Below the menu, there is a search bar with the text 'Syncope' and a 'Search' button. The results section shows 'Results Returned: 14 documents for search term 'Syncope''. Below this, there is a table with the following columns: 'Document Name', 'Type', and 'Languages'. The table contains three rows of results:

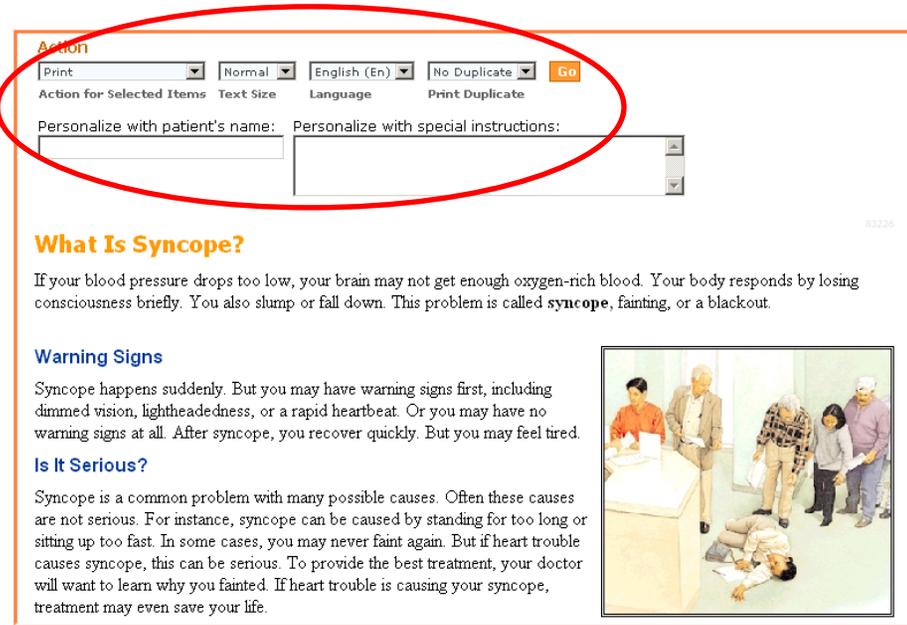

Document Name	Type	Languages
<input type="checkbox"/> Syncope, Causes	HealthSheets™	EN, SP
<input type="checkbox"/> Syncope, Diagnosing	HealthSheets™	EN, SP
<input type="checkbox"/> Syncope, Treating: Helping Your Heart	HealthSheets™	EN, SP

Your Search Results will tell you the available languages for the sheet you have selected.

1. Click the search box at the top of any main KOD page
2. Type in keyword(s) for your search
3. Click **Go**. The Search Results page will appear along with abbreviations for the languages available for a particular sheet
4. Click on any blue HealthSheet title link to view the HealthSheet
5. To view a HealthSheet in a language, choose that language from the dropdown menu and then click **View in...** in the action dropdown. Click **Go**.

PERSONALIZE AND PRINT A DOCUMENT

A HealthSheet or drug sheet can be printed with a patient's name and instructions on the document.

The screenshot shows a document viewer interface. At the top, there is an 'Action' dropdown menu with 'Print' selected. Below it are four dropdown menus: 'Action for Selected Items' (set to 'Print'), 'Text Size' (set to 'Normal'), 'Language' (set to 'English (En)'), and 'Print Duplicate' (set to 'No Duplicate'). A 'Go' button is to the right of these menus. Below the menus are two text input fields: 'Personalize with patient's name:' and 'Personalize with special instructions:'. A red circle highlights the 'Action' dropdown and the 'Go' button. Below the input fields, there is a section titled 'What Is Syncope?' with a paragraph of text and a sub-section 'Warning Signs' with another paragraph. To the right of the 'Warning Signs' section is an image of a person lying on the floor in a hospital hallway, with others around them.

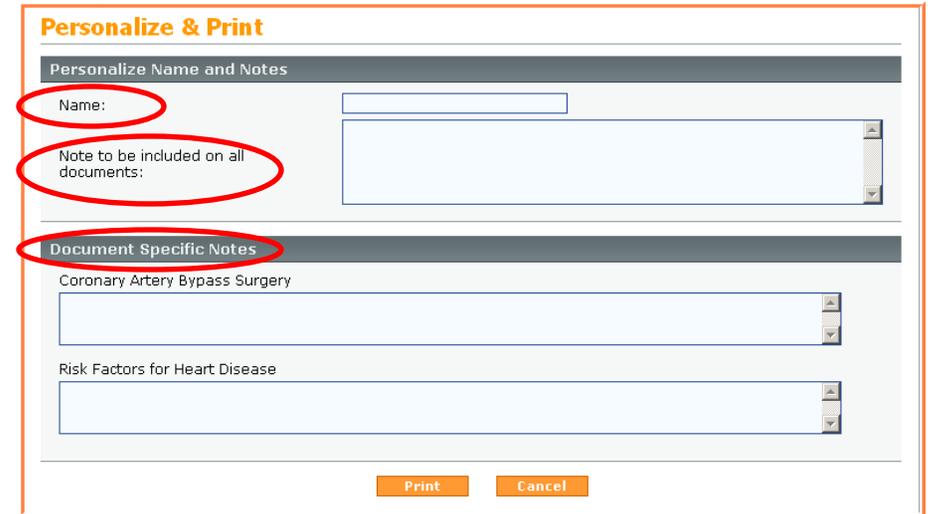

To personalize and print a sheet while you are viewing it:

1. Enter the patient's name and instructions in the text boxes provided at the top of the document.
2. Select **Print** from the Action for Selected Items dropdown
3. (Optional) Select the **Text Size** (the default is Normal, 12 point font)
4. (Optional) Select the **Language** from the dropdown box (the default is English)
5. (Optional) If a language other than English is being printed, select either No Duplicate or English from the **Print Duplicate** dropdown box (the default is No Duplicate)
6. Click the **Go** button to print the HealthSheet or drug sheet. When the print dialog box appears, click Print or OK

PERSONALIZE AND PRINT MULTIPLE DOCUMENTS

This **Action** option allows you to personalize HealthSheets and drug sheets for a patient. You can add the patient's name and notes to each document that is printed.

Personalize and Print is available in the Action dropdown menu 'Action for Selected Items' for documents present in a folder, education cart or search results list.

The screenshot shows a 'Personalize & Print' dialog box. It has a title bar 'Personalize & Print' and a subtitle 'Personalize Name and Notes'. Below the subtitle are two sections: 'Name:' and 'Note to be included on all documents:'. The 'Name:' section has a text input field. The 'Note to be included on all documents:' section has a large text area. Below these sections is a 'Document Specific Notes' section with a list of documents: 'Coronary Artery Bypass Surgery' and 'Risk Factors for Heart Disease'. Each document has a corresponding text input field. At the bottom of the dialog box are 'Print' and 'Cancel' buttons. Red circles highlight the 'Name:' input field, the 'Note to be included on all documents:' text area, and the 'Document Specific Notes' section header.

Personalize and Print:

1. Select **Personalize and Print** from the Action dropdown and click **Go**
2. Enter patient's name
3. Add notes to be included on all documents
4. Add specific notes to each document
5. Click on the **Print** button

EDUCATION CART

Documents can be added to the Education Cart from the Browse, Folders, Medications and search results. The documents in the Education Cart can be arranged to print in sequential order or added to a folder.

KRAMES On-Demand

VERSION 5.0 | © 2012 The StayWell Company

The Education Cart operates as your online “shopping cart.” It will automatically empty when you log out of the KOD program or close your Internet browser.

Add content to the Education Cart:

1. Select the document(s) that you want to add to the Education Cart from Browse, Folders, Medications or search results
2. Select **Add to Education Cart** from the Action dropdown and click **Go**
3. Click on the Education Cart tab to view the content in the cart
4. Choose an Action from the dropdown menu to apply to the documents

Please Note: Krames On Demand will “time out” after 30 minutes

PATIENT CHART

The top of the homepage shows that you are logged on as a generic user. Please note that at this time, your activity on this site will not be recorded in the Electronic Health Record automatically. Please continue to chart all patient education activity according to existing standards.
